

2014 wmsga.org Report

In 2014 the website got a new look, I added a fill-in application for printing and I introduce the new mobile version of wmsga.org. All the changes improved your website experience. The mobile version made viewing on phones and tablets easier as well as more efficient.

The website is an evolving entity which requires daily editing from news items to weekly results. I start working in January to make sure all areas are up-dated by April 1st. The photo library is available year around and many thanks to Sue and others who have submitted photos. The 3rd party “from” builder has worked like a charm this year. It has solved this missing app problem.

I am always looking for news items, for the home page, that involve our present or past members. So please submit all items to ccole_website@wmsga.org.

Sincerely,

Charlotte Cole, Webmaster
