

WMSGGA 2017

Handicaps

The handicap committee, formed in the fall of 2015 at the annual meeting of the WMSGGA, has met informally this summer to discuss items dealing with handicaps. Since we have not had any specific complaints or issues addressed to us and since we will be part of a new association beginning in 2018, we do not have a new report to present to you. However, we would like to reiterate the importance of the information contained in the Handicap Reminders that we presented last year. You can find them on our website in the Minutes & Reports for 2016.

Respectfully submitted

Darlene Soboleski
